Introduction**

Page size doesn't matter:

**Tall pages will allow
viewers to scroll down**

Page size doesn't matter:

**Wide pages will allow
viewers to scroll along**

**We can embed YouTube
videos ->**

EMPTY PAGE
(There will be a YouTube
video here)

... or just a regular .mp4

->

**(Notice also that we can
play .mp3 audio
spanning several pages
vvv)**

**We can also add
interactive maps using
Miro - →**

board here)

**Or even embed a 3D
model as .glb ->**

**Your pages don't
NEED to be
empty, you can
add extra
information next
to some
embedded
objects if you like
:)**

Lastly, all the loading screen symbols, arrows and the page icon can also be changed.

Thank you for listening to my talk :)
